Honorable Stephanie Moncrief Mayor City of Walnut Grove 2581 Leone Avenue Walnut Grove, GA 30052

RE: EMERALD COVE PAVEMENT RESTORATION RECCOMENDATION

Dear Ms. Moncrief.

I have reviewed the City's Emerald Cove Pavement concerns and potential solutions to restore the paving section close to original grades. I will not get into the background, causes, or specific underlying issues in this letter but only recommended options to consider.

Option 1: Fill gutter with asphalt - \$150,000 Estimated

This option is exactly as it sounds; the City will solicit bids to clean and reestablish the historic gutter line and tack and fill with asphalt. This work will require a minimum amount of material but significant labor as the work is almost all to be performed by hand. This is the most economical solution but comes with the following concerns:

- 1. Because the gutter will be filled by hand, it will not be possible to be perfectly smooth and will be a noticeable difference from the adjacent paving.
- 2. The cracks and joints in the gutter line will transfer up to the surface of the asphalt relatively fast. This can lead to delamination of the asphalt and be a maintenance and aesthetic problem in the future.
- 3. Concrete can hold and permeate water that may lead to additional isolated delamination as moisture seeks a way out.

Option 2: Mill and Inlay - \$300,000 – 400,000 Estimated

The City will solicit bids to mill the roadway surface 1.5 inches below the gutter line, patch any areas of failing pavement, and pave back flush with the edge of the concrete gutter. This contract will need to include concrete removal and repair at all locations homeowners have filled the gutter in.

- 1. This estimate will depend on the lower pavement condition, below the current asphalt surface and there could be additional cost due to what cannot be seen.
- 2. Construction staging will be very difficult and a temporary burden to the neighborhood as the road is milled several inches in some locations.
- 3. Some savings may be possible by utilizing a slightly thinner topping.
- 4. Bids for single streets / neighborhoods are very difficult to estimate due to the amount of road work in the marketplace and could be significantly higher than estimated.

My professional recommendation is option 2, as a 'BEST VALUE' to the city. Fix it like new now and there should be minimal maintenance and repair for many years into the future. Once an option is chosen, I will assemble a bid package and we should be able to post a bid within two weeks. The bid will need to post for 30 days, with the work potentially being completed by mid October.

Thank you for the opportunity to support the City of Walnut Grove. I look forward to working with you, the council, and staff.

Sincerely,

Aaron Wadley, P.E.

Consultant shall not be considered to be the agent or fiduciary of the Client.
- Responsibility of Consultant. - 7. **Opinion of Costs**. When required as a part of its scope of services, Consultant will furnish opinions or estimates of construction cost on the basis of Consultant's experience and qualifications, but Consultant does not guarantee the accuracy of such estimates. - 8. Changes or Delays. In the event new developments or circumstances beyond the control of Consultant require a change in the scope of services or schedule, Consultant shall be entitled to an equitable adjustment to the fee and/or schedule. Such events include, but are not limited to, unreasonable delays caused by Client's failure to provide specified direction or information, delays caused by Client's other contractors or consultants, or if Consultant's failure to perform is due to any act of God, labor shortage, fire, inclement weather, act of governmental authority, failure of transportation, accident, power failure, or interruption or any other cause beyond the reasonable control of Consultant.
